Professional summary

PMO and reporting professional with 12+ years running performance reporting on large multi-contractor programmes in energy and industry (Iraq, Kazakhstan). Built reporting procedures and approval workflows from scratch, tracked plan vs actual on schedule and budget, and turned deviations into management decisions. Now moving into business intelligence: MSc in Information Management (BI) at NOVA IMS, Power BI, SQL and Python, plus a self-built SQL training app (quaera.app). Seeking PMO, reporting or BI analyst roles in Lisbon.

Work Experience

09/2024 — 09/2025

Lead Reporting Specialist — EuroChem Karatau (chemical complex project, Kazakhstan)

- Built weekly management reports and KPI dashboards (Excel, PowerPoint) for project leadership
- Stabilized weekly reporting: on-time delivery with sign-off by the end of each reporting week
- Analyzed schedule and performance data to flag critical issues and trends early

04/2013 — 04/2020

Planning & Reporting Manager — GazpromNeft Business Service (Badra oilfield, Iraq, USD 2bn+)

- Owned daily/weekly/monthly reporting for a ~USD 80M infrastructure scope with 2 main contractors
- Analyzed plan-vs-actual performance to identify trends and key deviations
- Tracked contractor schedules in Primavera P6 and flagged critical-path risks
- Investigated root causes of delays and proposed mitigation actions to management
- Monitored budget execution: planned vs actual costs and payments

11/2008 — 04/2013

Reporting Manager — OGCC KazStroyService (gas compressor stations and pipelines, Kazakhstan)

- Set up project reporting procedures and approval workflows with the client
- Collected, cleaned and consolidated data from multiple sources into management reports
- Prepared executive presentations and project schedules (MS Project)
- Coordinated cost tracking with vendors and subcontractors

12/2021 — 07/2024

Chairman of the Board — Homeowners' Associations (OSI KAYRA, OSI MECHTA, Kazakhstan)

- Managed vendor selection, service contracts and maintenance operations
- Controlled budgets and quality of infrastructure works (utilities, roads, CCTV)

Analytics Projects

- Quaera (quaera.app): browser-based SQL & pandas training app on a self-designed 12-table synthetic FMCG dataset, with theory, free practice and story mode
- Arctic Math Rescue: children's math game (EN/RU) on Google Play; both built with AI-assisted coding

Other Experience: LLP Uniline (Deputy Manager, Education Center), Deloitte (Assistant Auditor), KIMEP University (Teaching Assistant), USKO Intl. (Marketing & Warehousing Intern), National Transportation Center (System Administrator)
